

# Meeting Notes

Project : Avrioc AMC

16 April 2025 5 PM

## Attendees

Karthik Hegde H A , Mohammad Suhel , vinod.raveendran@avrioc.com , saqib.subhan@avrioc.com ,  
sindhuja.nagendran@avrioc.com Sriharsha.Jakkampudi@avrioc.com  
Yogesh Choudhary

## Notes:

The Ksolves team discussed regarding Avrioc Redis and RabbitMQ existing setup.

Key points discussed include:

### RabbitMQ:

1. How failover is managed for primary/master node on Alma Linux
2. Is there Erlang on AWS rabbitmq.
3. Are we using rabbitmq management, if so then the user is custom created and granted custom privileges?
4. Is SSL is implemented on rabbitmq

### Redis:

1. What operations and method calls frequently being used
2. Any specific tool or Platform or scripts that are being used to access, read and write data to Redis

## Action Item:

1. Avrioc team will share list of method calls being used on Redis
2. Also the Avrioc team will gather more detailed information on Redis and RabbitMQ setup and will discuss in recurring calls.
